**BUNDLE UP!**

This is a question often asked when a business joins the Chamber. There are many direct and indirect benefits as a result of YOUR Chamber membership. It’s fair to say that YOUR Chamber does not “cost”, but rather “pays”. At times, value is apparent, at other times, it’s not. However, one thing is certain - YOUR Chamber is constantly working on YOUR behalf to produce bottom-line results for the local economy through efforts in public policy, economic development, community promotion and networking.

**Multiple Business Definition and Fees:** A Chamber member who owns 50% or more of more than one business entity is considered to be a multiple business owner. To be considered for multiple business locations, the largest business must be a member and their additional businesses can be listed if they bundle into a level that includes multiple businesses. If you have more than one additional location you can upgrade to a higher tier or buy additional locations at Alfa Carte.

I have several business locations. What are my options? Depending on the investment your business wants to make with the Chamber, you can invest in a tier that includes the number of locations you have. For example, if you sign up at the Partner Level, your membership includes up to two additional locations. If you have more than two locations, you can upgrade to a higher tier or purchase additional locations at Alfa Carte.
